

Postgraduate/Early Career Researcher Day

Invitation for workshop submissions

Delegates attending the **ANZCA Postgraduate/Early Career Researcher Day** are invited to submit proposals to pitch and run a 60 minute workshop.

This year, we are focusing the ECR Day on practical approaches to research and study. We have created a space for delegates to run workshops that allow for wider conversations and the development of shared knowledge.

The overall theme of the workshops will focus on how we might enhance a communicative focus in our research, both theoretically and methodologically. Proposals may align directly with this theme, but you may also wish to submit a proposal that addresses another topic.

We aim to run up to 3 workshops concurrently, with an allocated time of 60 minutes. The format of the workshop is flexible; you could organise a panel session, hold an interactive workshop, or share your own knowledge on a specific topic. Workshop proposals can have multiple authors but should not exceed 2 pages in length.

Workshop proposals will be peer reviewed and should be submitted to Roxanna Holdsworth at reh20@students.waikato.ac.nz by **31st May 2018**. Any enquiries or requests can also be directed to Roxanna.
